

Gas technology

PLANTS FOR NATURAL GAS PROCESSING

ALWAYS AN IDEA AHEAD

Project information

Plant: Natural gas processing plant

Location: Palmyra, Syria

Capacity: 3 bn. Nm³ natural gas / per year

Services of CAC

- Project management
- Basic and detail engineering
- Technical Procurement of Equipment & Bulk Materials
- Construction Supervision Assistance
- Commissioning & Test Run Assistance

PLANTS FOR NATURAL GAS PROCESSING

Special features

Processing of natural gas extracted from deposits marketable natural gas

Customized combination of different process stages in dependence of the quality of raw materials and of the desired product

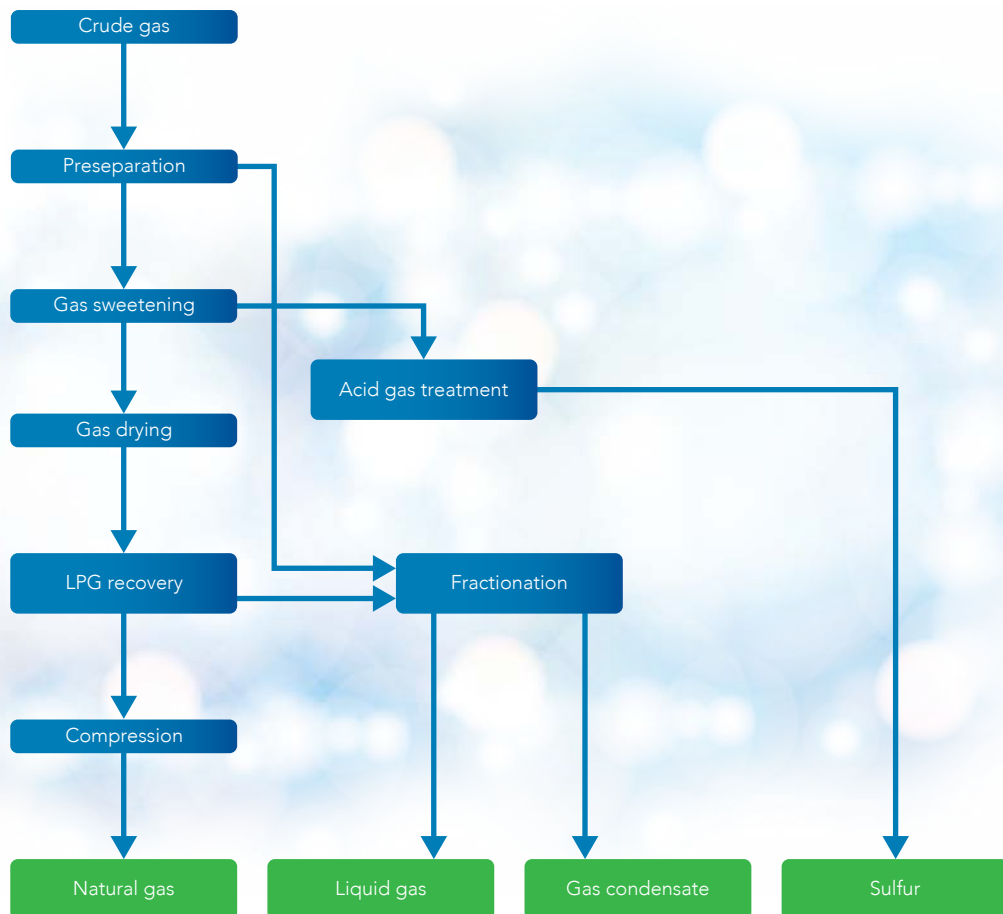

Products

Marketable natural gas

Liquefied Petroleum Gas (LPG)

Gas condensate (C₅₊)
